ELECTION! ELECTION!

MAYOR'S OFFICE,
CITY OF RALEIGH, March 8, 1869.

In pursuance of a resolution adopted by the Board of Commissioners, notice is hereby given, that an election will be held on the 5th day of April, 1869, at the Court House, in this City, wherein the qualified voters of the City shall express their approval or disapproval of the question, whether the CITY of Raleigh shall borrow FIFTY THOUSAND DOLLARS in the manner, and for the purposes mentioned in the following acts of the General Assembly of North Carolina.

WM. H. HARRISON, Mayor.

AN ACT TO ENABLE THE CITY OF RALEIGH TO BORROW MONEY FOR CERTAIN PURPOSES.

The General Assembly of North Carolina do enact: SECTION 1. That for the purposes of paying present indebtedness of the City of Raleigh, and also for meeting the expense of improvements to be made for the same, the City is hereby authorized and empowered to issue bonds severally of such sums or denomination, payable at such time or times respectively, drawing interest at such rate, not exceeding eight per cent. per annum, payable half yearly, of such form and tenor, and transferable in such way as the Board of Commissioners of said City shall deem most judicious. The said bonds so to be issued shall be disposed of upon the best terms practicable. *Provided*, That said bonds be of the denomination of one hundred, and five hundred, and one thousand dollars, respectively, and in such proportion as may be deemed advisable, and *Provided further*, That said loan shall not exceed fifty thousand dollars, and the bonds having twenty years to run.

SEC. 2. That the Board of Commissioners of the City of Raleigh are hereby authorized and empowered, and it shall be their duty, to provide for the payment as well of the principal money as [illegible] accruing interest of the bonds to be issued under the power granted in the preceding section, by annually laying particular taxes for these special purposes on all the persons and subjects of taxation on which said Board of Commissioners now are or hereafter may be authorized to lay taxes, for any purpose whatever, and such taxes shall be collected and specially and exclusively applied to the satisfaction and discharging of the interest, and also of the principal money of such bonds, and so much thereof as may not be annually required to pay such interest and cannot be applied in discharge of the principal money of said bonds, shall be so invested as to secure the payment of such principal money upon maturity of said bonds. For the purpose of securing the due investments of the amount to be collected from year to year and applicable to the payment of the principal money of said bonds, the Board of Commissioners aforesaid shall appoint some suitable person to be styled "Commissioner of the Sinking Fund of the City of Raleigh," whose duty shall be, under such general rules and regulations as said Board of Commissioners shall from time to time prescribe, to make investments of so much of the taxes collected as aforesaid as shall be applicable as aforesaid to the payment of the principal money of said bonds, and to do and perform all such other services in connection with the debt of the City of Raleigh as said Board of Commissioners may prescribe, and such Commissioner shall give bond, and receive such compensation for his services as said Board of Commissioners may determine.

SEC. 3. The coupons of the bonds authorized to be issued by the first section of this Act shall be disposed of either by sale, exchange or otherwise, for any purpose whatever, other than that declared in said section; nor shall any of said bonds be applied either by sale, exchange or otherwise, in satisfaction, discharge or renewal of any one of the class of debts referred to in said section, until such debt shall have been first duly audited and approved by the Board of Commissioners of the City of Raleigh.

SEC. 4. The provisions of this Act shall be submitted for a vote of the qualified voters of the City of Raleigh, at an election to be held at the Court House in said City, at a day to be designated by the Commissioners thereof, which shall not be less than thirty days after the ratification of this Act. Those approving the provisions of this Act shall deposit in the ballot-box a slip folded containing the printed or written word "Approved." Those disapproving the same shall deposit a like ballot with the words "Not Approved." If a majority shall vote "Approved," it shall be deemed and held that a majority of the qualified voters are in favor of giving the Commissioners authority to issue the bonds of the City as mentioned in this Act, and likewise to levy and collect the necessary taxes to pay the interest and principal of said bonds or so above mentioned. If a majority of said voters shall vote "not Approved," then this Act shall be of no effect. Those qualified to vote for Mayor and Commissioners of said City, and none others, shall be allowed to vote, and the election shall be held and returns made, under such rules and regulations as exist in case of election of civil officers. It shall be the duty of the Mayor to cause a copy of this Act to be posted at the Court House door, and to be published in the Raleigh *Standard* and *Sentinel*, daily for twenty days preceding the election, and he shall publish in like manner a notice of the election. Public notice shall be given of the result of the election.

SEC. 5. The Commissioners of the City of Raleigh shall have power, consistently with the laws of the State, to provide for the registration of voters, and to take all measures necessary and proper for holding the election as contemplated in this Act.

SEC. 6. This Act shall be in force from and after its ratification.

Ratified this 3d day of March, A. D. 1869.

(Signed,) TOD R. CALDWELL,
President of the Senate.

IMPORTANT TO MILL OWNERS.

IN ORDER to accomodate the Milling public with "GODWIN'S PATENT VENTILATOR AND BOLTING CLOTH CLEANER," the undersigned has reduced the price of his Smut Machines to $75. The two will be combined. This important invention guards against damp wheat and damp weather, thoroughly cleaning the Cloth each revolution the Reel makes, and filling the Reel all the time with cold air. Send back your old Machine and have them renewed thereby saving the price of a new machine. They will be returned and warranted for four years. In no case buy a Smut Machine without writing to me first, as there are Machines now being sold as McMannen's Smut Machines which are only an imitation.

THE SENTINEL.

JOSIAH TURNER, Jr., EDITOR.

SATURDAY, MARCH 27, 1869.

ATTEMPT AT MURDER AND ASSASSINATION.

We publish in full the account, as found in the *Standard*, of the attempt to assassinate us.

Many persons, familiar with the style of Joe Holden, say he wrote it. We don't know as to that; but we think him the author. No other man could have written it, as we think. It is evidently written by one who had a deep interest in the matter, and can't bear to hear the truth, as stated by Lieut. Pike, who says he had nothing against us personally, but went as a friend of Holden's. If the Editor of the *Standard*, or any one of the Judges who write for that paper, or Victor Barringer, had written it, they would have called Joe, "Hon. Joseph Holden." But to the *Standard's* version of it:

"JOE TURNER—COWARDS—MOBS—RUNNER—PISTOLS—RETRACTIONS—STUFF," &c.

Somebody in Smithfield informed Josiah Turner, the editor of the *Sentinel*, that he would be attacked on his arrival in Raleigh. Whereupon Josiah Turner blustered and sputtered like "ancient Pistol."

When he arrived at the N. C. depot, a young man—a lad, he says—came to him and said that Joe Holden was after him.—Turner had arms. But listening to this lad, the manhood in him oozed out. He turned from the usual entrance and exit. He "toted" Out of the gate or over the fence, ten feet high, he peregrinated. One man from Sheffield, Eng., whom it seems the Lord had sent to America as Turner's guardian angle, with a monkey wrench in his hand, accompanied him. He, Turner, leaped upon the nothern platform with the agility of Falstaff, going to Hotspur's warwhen, lo and behold, young Menninger accosted him with expletives and compliments. Turner took water. He quickened his pace. Sheffield, Eng., clenched his monkey wrench. Quiet reigned in Warsaw.

Josiah Turner, *Jr*, turned and beheld Joe Holden, who, finding that he had avoided the usual entrance, came upon him with a copy of the *Sentinel*. Turner jerked forth two Colt's revolvers. Turner dodged behind Sheffield, Eng. He next took a corner. The sight of the *Sentinel* was enough. The physician's medicine was the physician's disease. Turner retreated forty steps per second down Davie street. There he erected himself. When Mayor Harrison and the police disarmed him and took from the pockets of Holden a pistol. That was all.

The "ancient Pistol" of the *Sentinel* was summoned to the Mayor's office. He called upon the Mayor to disarm certain parties. Gen. Laflin said he had no weapons. So did Mr. Jenkins, *Jr*. Turner sat down. He had thus far flanked a fight, and flung himself upon the tender mercies of the police, two of whom he especially compliments, and justly too, for saving him from a little tanning. The trial went on, Sheffield, Esq., testified to the avoidance of the entrance by Turner, &c. Turner made a statement. A man offered to go Turner's bail. He was insulting to the Mayor. He was ordered to be arrested. A row occurred. Turner vacated his seat. He took water again, and vamoosed the Mayor's office. Sheffield, Esq., and monkey wrench ditto, all went to supper. Turner sent for arms to his office.—There are now, so we are informed, in his establishment, twenty eight shot guns, pistols, muskets, rifles, bludgeons, bowies and other "running gear," common to cowards and mobs and assassins.

How funny! How ridiculous! Oh, chivalry! Oh, Joe Turner! Oh, Davie St! Oh, Sheffield, Esq.!—Monkey wrench and company!

Lieutenant Pike, who will fight, as all of Capt. Manly's battery can testify, for they took off his leg at the battle of Williamsburg, said publicly, in a public house, that he had been sold twice, and it was the last time. He was done going to fight for men who would not fight for themselves. Joe Holden invited him, in the morning, to be at the depot on the arrival of the evening train. He expected to have a difficulty, and wanted his friends on hand. He did so, but was too late for the train. Neither party seemed anxious for the fight, when Turner, standing alone in the street, commanded them to halt, and said, if they advanced, he would fire on them. They did halt, and it was Turner who stopped them. He took a position a little more prominent than some others, and stood waiting with his hand upon his pistol, for his principal to commence the fight, which he failed to do; and he left, feeling like a d—— fool. He had lived for several years in the South, where they would fight—where such preparation for one would have resulted most likely in the death of many men.

Lieutenant Pike further said, he wrote what he pleased for the *Standard*, and if he and Turner had a difficulty, he would not go about town telling everybody about it, but he would give him no ice in the paper to prepare himself, for he should attack him on sight.

This is the evidence of Joe Holden's second. It does not tally with the account given in the *Standard*. There are sixty one and a half lines in the *Standard's* account of the matter. There are thirty-nine falsehoods in the sixty one and a half lines, and we can prove the material ones by the evidence of Lieutenant Pike, Mayor Harrison, Bellard and Martin, the latter being a police officer.

FALSEHOOD

No. 1.—"He turned from the usual entrance. He toted out of the gate, or over the fence ten feet high."

We went out of the gate, and the usual and only one we have gone out of, since the depot was leased in.

No. 2.—"He turned and beheld Joe Holden, who, finding he had avoided the usual entrance, came upon him with a copy of the *Sentinel*. Turner jerked forth two of Colt's revolvers."

We saw no *Sentinel*. We are first put down as escaping by flight; then Joe came upon us. We did not have even one of Colt's revolvers, but we will not count this falsehood, as we did have two pistols—a small pocket pistol, and a navy shooter, which one of the boys brought us to the train, and that alone, we think, saved our life—that stopped the posse, while Lieutenant Pike, the second, stood waiting for the principal to make the onset, and when he did not, Pike turned off, feeling, as he said, like *a darned fool*.

No. 3.—"Turner dodged behind Sheffield England."

Meaning, my true friend, Mr. Merrill.—Lieutenant Pike, Cebe Harris, Jenkins, *Jr*., and Farris, all know I did not, for they were there.

No. 4.—"Turner retreated 40 steps per second down Davie Street."

Not so.

No. 5.—"He called upon the certain parties."

When the mob of Secret Leaguers assembled in the Town Hall, and around it, for it would not hold them, we repeated our request to Mayor Harrison to give us our arms. He refused, saying he could keep the peace. We said, with an armed mob around us, we were entitled to our arms. "Who," asked the Mayor, "is afraid?" We said "we supposed General Laflin and the whole concern."

The Mayor asked Gen. Laflin if he was armed; he said no.

No. 6.—"He put himself on the tender mercies of the Police, and compliments two of them for saving him a little tanning."

Our pistol saved us; the Police were too late, if the leader of the mob had advanced, or Menninger had attacked, for he walked by our side for 30 yards or more, waiting for Joe and the posse to come up. He had, too, as he said next day, a pistol cocked in his pocket, and a stick in his hand.

No. 7.—"A row occurred; Turner took water."

The row did occur—*two* of them. Joe's daddy created one—and the arrest of my friend and ball caused the other. We took no water, but went to our friend's, asking them for a pistol, and could not get one.

No 8.—"He took water again and vamoosed the Mayor's office."

No 9.—"Turner sent for arms to his office."

Not a word of it is so, and the author of the article never heard it.

No. 10.—"There are, now, so we are informed, in his establishment, twenty eight shot guns, pistols, muskets, rifles, bludgeons, bowies, &c., &c."

Here are twenty-eight falsehoods in a pile. We have neither musket, rifle, bludgeon or bowie. We are not without arms, but not of that style or number.—Until we had been in this city for three weeks, we were never known to carry arms about our person. We had regarded it as an evidence of timidity or cowardice in olden times for a man habitually to carry arms. In our raising we never knew but two boys who did so, and they were both cowards.

We are content to allow the conspirators all the glory they won in the affair. We are glad it terminated just as it did. We don't want the blood of young men on our hand, who may be urged, under the influence of whiskey, by older men to do what they would, but dare not.

HONESTY!!

The number of absentees from this General Assembly, the frequency with which "leave of absence" has been granted, and the *extent of time*, allowed absentees, is astonishing. The journals will show that there has not been, on an average, over *eighty-five* members present in the House.—In the Senate the average daily attendance will not exceed *thirty five*. Now let us sum up:

Daily attendance of Representatives,	85
" " Senators,	35
Members attending,	120
Whole number,	170
Number daily absent,	50

Again, if this body adjourns on the 12th of April, they will have been in session 135 days. Next multiply this last number, 135 by 50, the average number absent, and we find there will have been 6,750 days of absence.

6,750 days at $7,	$47,250

Forty-seven thousand two hundred and fifty dollars, to be paid out of the Treasury, for which not a particle of service has been rendered.

A Senator, who has an indefinite leave of absence, who has been absent nearly three months, engaged in a fishery, sent to his friends here a day or two since to draw his pay, over $300, and send it to him. What a shameful outrage. Rich fruits of Radicalism!!

Oh, Reconstruction! Oh, Holden's administration! Oh, Alden, Laflin and Littlefield, and the whole family of carpet-baggers! Oh, the poor spirit of a once proud people who, by becoming slaves, have put themselves quietly under such despotic party influence.

Gods, my countrymen, there's a better day coming.

Rev. Dr. Dix, of Trinity Church, New York, is reported to have said in a late sermon: "As for Protestantism, considered as a system, its power is broken, its epitaph is written, and its grave is dug."

Queen Victoria has spent nearly $2,000,000 in commemorating the Prince Consort.

Admiral Randall found, in Siberia, remains of elephants at a depth of 450 feet. Most of the ivory we get is made out of shin bones in Bristol, Con., but the genuine article comes from Sibera. The most intense cold could never freeze the earth down 450 feet. The most intense cold in Vermont never freezes deeper than 30 feet. How then could gravel have frozen at 450 feet? How did those frozen elphants get there?

Lamartine, only a few days before his death, expressed his wish that there should be no funeral ceremony in Paris, but that his remains should be conveyed to St. Point, near Macon, and laid in the tomb where his father, mother, and wife repose. A decree in the Official Journal, signed by the Emperor, directs that the funeral of M. de Lamartine shall be celebrated at the expense of the public treasury, "in recognition of the great services which he rendered to the country in time of difficulty."

HOUSE OF REPRESENTATIVES.

FRIDAY, March 26, 1869.

Prayer by the Rev. Mr. Long, of Chatham, of the House.

Journal of yesterday was read and approved.

Mr. Stilley, from the Committee on Education, reported favorably upon the bill to provide a system of Public Instruction.

Mr. Mendenhall arose to a question of privilege. He, as one of the Committee on Education, dissented from certain portions of the bill, &c. He would state his objections in detail when the bill came up for consideration.

Mr. Hodgin spoke to the same effect. The bill was made special order for Monday next at 11 o'clock.

Mr. Estes, from the Committee of Conference, in relation to the Revenue bill, submitted a report which was placed upon the Calendar.

Mr. Burnett: A bill to levy a special tax in Person County. Lies over.

Mr. Downing opposed a suspension of the rules.

After some debate, Mr. Pou's motion to suspend the rules, was put to a vote and carried.

The Clerk read the bill. (The bill forbids the Treasurer from paying the interest or principal on the $100,000.)

Mr. Pou moved to strike out a portion of the preamble and to change the title of the bill.

Mr. Downing took the floor and spoke against the bill. He thought if the House passed the bill it would prove a nullity.—He did not think the State could repudiate the purchase.

After some discussion the question recurred upon Mr. Pou's motion to strike out the preamble.

Mr. Durham said he hoped the motion would not prevail as the preamble spoke the truth, as there certainly had been a hinge fraud somewhere.

Mr. Downing said it was a tissue of falsehoods.

LIFE INSURANCE.

NATIONAL

LIFE INSURANCE COMPANY,

OF THE

UNITED STATES OF AMERICA,

WASHINGTON, D. C.

Chartered by Special Act of Congress, Approved July 25th, 1868.

CASH CAPITAL,

$1,000,000,

PAID IN FULL.

It is no longer a question with any man, who tenderly loves his wife and children, who considers how helpless would be their condition in case of his death, as to the duty of taking out a LIFE POLICY, but as to which Company he shall pay his money.

If he reflects a moment he will conclude to patronize the Company which shows the greatest degree of vitality, which extends its business over the largest area, which is a Home Company in every locality; which furnishes insurance at the least cost; which issues no policies that are forfeitable should he be unable next year, or any subsequent year to pay his renewal; and which is undoubtedly able to meet ALL ITS PROMISES.

With these feelings and views, he looks over the newspapers, and, by the time he gets through reading the advertisements of Mutual or Mixed Companies, he finds his mind so muddled that he is at a loss where to go or what to do. He can not comprehend one-half that is written, and concludes that none but ACTUARIES, who are familiar with the principles upon which Life Insurance is based can comprehend or explain anything about dividends and his liability for notes given in part payment of premiums. In his dilemma, he looks into the plan adopted by the

NATIONAL

LIFE INSURANCE COMPANY,

U. S. A.,

and finds just what he wants:

An ALL-CASH PLAN, reduced to the LOWEST MINIMUM Rate, like any commodity in Market, so much Insurance for so much Money. No notes to give; no interest to pay; no anxiety about Assessments; no apprehension of his Policy being forfeited next year if he does not pay his annual Renewal; and the RATES so much LOWER than other Companies, that he realizes a larger Dividend, IN ADVANCE, than other Companies can pay him in the future.

He finds that, instead of this UNCERTAIN PROMISE, and present high rate, that the

NATIONAL

presents a certain and definite sum for a much lower rate, and puts up its paid up Capital of

$1,000,000

as a guarantee fund, that its contracts will be fulfilled, and, like thousands of others, cheerfully calls on their Agent to make his application for a Policy. Hence the unprecedented and most wonderful success of the NATIONAL as contrasted with the older and Mutual Companies.

The Company issued its first policy on the 1st of August, 1868, and up to March 1st, 1869, it had issued 3,582 policies.

Amount insured,	$10 005,550.00

CAUTION! We desire to warn the dealers in, and consumers of Snuff generally, that since the war, certain Tobacco Manufacturers, being unable to find a market for their snuffs, felt themselves obliged to counterfeit the general appearance of our packages, and imitate our Trade Marks so that a close inspection is necessary to detect the spurious article from the genuine, and others going so far as to assert that "Lorillard's Snuff is no longer made."

In making this publication we desire to warn the public against the impositions practiced upon them, as they are the losers thereby. It will be found, upon comparison, that Lorillard's Snuff is "far ahead" of all others, being made of the best stock, after an original and secret process known only to ourselves, besides possessing great age, strength and pungency, and is warranted not to contain any dangerous or deleterious substances, which cannot be said of many worthless articles put on sale by others. The best is the cheapest in the end. A circular will always be mailed on application. In ordering please specify if Salt Snuff (High Toast,) or Fresh Snuff (Extra Scotch) is desired.

Remarks of J. W. Graham, Senator from Orange, Delivered in the Senate, March 17th, 1869, on the Bill to be entitled an act to Raise Revenue.

Section 2 of the above bill provides that there be levied a poll tax of one dollar and five cents.

The Senator from Johnston, (Mr. Cook,) moved that the word five be stricken out and fifty inserted. Upon this motion, Mr. Graham said:

MR. PRESIDENT:—The question presented, is one of very great importance, as the Constitution art. V, section 1, declares that the poll tax shall be equal to the "tax on property valued at three hundred dollars in cash;" so that if we make the poll tax one dollars and fifty cents, the tax upon land and other property must be one half of one per cent. The Treasurer, in his report, says that "for State and County purposes combined, the poll tax cannot exceed $2. Hence $2 is the maximum limit of the *ad valorem* rate on $300 worth of property or 66⅔ on the $100 value for State and County purposes." It, then, we take for State purposes, three fourths of the amount which can be levied, we leave to the Counties the right to impose fifty cents on the poll, and sixteen and one sixth cents on the $100 worth of property. The Treasurer further says, "if the State rate be 40 cents on the $100, sufficient margin will be left to the Counties." So that the Senator proposes to give the Treasurer more than he asks for. But let us see what is the public debt of the State of North Carolina. The following will include all obligations for which the State may be held liable, incurred prior to the meeting of this Legislature:

Treasurer's statement of Public debt, Oct. 1st, 1868, Table C, (excluding 2,000,000 to Chatham R R Co bonds,		17,309,945

		$20,468 455

It is true that these bonds issued for Internal Improvement purposes during the war under acts prior thereto, have not been expressly recognized by the present Legislature, but as I think they are just obligations, I mention them here.

Of the above debt of $17,209,945 due Oct. 1, 1868, the Treasurer estimates that the Chatham Railroad Company will certainly pay the interest on the 1,200,000 issued April 1, 1868, to that Company. If this be so, the debt on which the State must pay interest outstanding on 1st of October, 1868, is $16,009 945. On this debt is interest and will fall due

Amount of interest for which the State is liable this year on bonds which she has issued or endorsed 1,092,596

I learn that no bonds of the $500,000 appropriated, under the Ordinance of the Convention, to the Western Railroad Company, have yet been issued, though the bonds have been prepared bearing date Oct. 1st, 1868. So that the State may become liable for $30,000 additional interest, making the whole amount $1,122,596. The sum of $150,000 in coupon bonds, directed by Ordinance of the Convention to be issued to the Williamston & Tarboro Railroad Company, when the President of the Company "shall certify to the Governor of the State that said road is graded," will, probably, not be called for this year. The Public Treasurer is directed by an ordinance of the Convention to loan to the North Western North Carolina Railroad Company, fifty thousand dollars, in coupon bonds, "whenever the President and Chief Engineer of said Company shall certify to the Governor of the State the grading of any section of five miles is completed, and ready for superstructure," so that the sum of $300,000, which I have estimated for this road will not be due for some time and the State will escape this year the payment of $18,000 of additional interest.

I have made no estimate for the interest on the $1,128,000 of Internal Improvement bonds, which I have mentioned. If the validity of the whole, or any portion should be admitted by this General Assembly, of course we must provide for them as we do for the other bonds of the State. Supposing we fund the interest accrued up to 1st October, 1868, the whole amount due up to that time would be $1,308,510 on which the interest would be $78,480.

[In the Treasurer's report, he states that $112,101 was due as interest on the public debt, Oct. 1st, 1868, which I learn has since been paid—I suppose, with the proceeds of the one hundred and eighty thousand dollars of 8 per cent mortgage bonds of the North Carolina Railroad Company, paid to the State as dividends on $3,000,000 of stock, which the "exigencies of the Treasury" required to be sold at 65 cents on the dollar.]

The bonds issued for the Penitentiary are not considered, as no tax was levied for payment of interest, and the whole transaction has been *repudiated*.

The Treasurer estimates that the probable expenses of the State Government for the fiscal year ending September 30th, 1869, will be $875,280. But as $100,000 in addition to the amount derived from the poll tax will be appropriated for Common Schools, and the General Assembly has already been in session longer than was anticipated, and there is no present prospect of adjournment, and the Public Printing has been extravagantly increased, and no provision yet made for the "erection and conduct of State Prison or Penitentiary." I do not believe $650,000 will be a sufficiently large estimate. The Governor, in his message, says: "The estimated value of all the property in the State, lands and their improvements included, is $250,000,000. I do not regard this as an extravagant estimate, but assuming that it is, and putting it at $200,000,000, it is clear that the people of the State are fully able to carry on their Government, and at the same time provide for the payment of the interest on their public debt."

I find by statement "H" of Auditor's report that the aggregate valuation of real estate of every County in the State from which returns were received prior to Sept. 30th, 1868, was $89,590,396. This includes seventy counties, leaving nineteen from which no returns were received.

I suppose $10,000,000 would be a high estimate for them, so that in round numbers we may say that the real property of the State rated at the valuation of 1860 modified in certain cases by the assessment of 1866 for extraordinary increase or decrease in value, is $110,000,000. But by the Constitution, Art. v, Sec. 3, we are required to tax "real and personal property according to its true value in money."

As I do not believe the valuation for this year will be near as large as that of 1860, and do not think the personal property will amount to $90,000,000, I regard $300,000,000 as a very high estimate but will assume it as the basis of calculation. Not believing the amendment offered by the Senator from Johnston will prevail, but supposing that the present amount, proposed in the House Bill, (35 cents on $100) will be adopted, I estimate it would yield a revenue of $700,000. By examining the taxes raised last year, we will see that this is correct, or a little more than we will get. Including that levied by the Convention, the tax was 3 20 of one per cent. or 15 cents on the $100. The Governor says "the amount from taxes including payments in October is two hundred and twenty-six thousand seven hundred and six dollars forty-two cents ($226,706,42.) The taxes from several Counties remain unpaid, but we cannot expect more than seventy-five thousand ($75,000) from this source." From the first sum deduct $30,152 received from the tax on polls, and $10,000 as the probable amount from the latter, and we have $261,554,42 as the amount received and to be received from the levy of 3-20 of one per cent. on the property and from the various other subjects of taxation. On many of these the tax was nearly the same as in the present bill, and many were taxed as luxuries, which cannot be done under our present Constitution, and many discriminations made against articles not the growth or manufacture of the State which we propose to abolish. From these calculations, I do not believe we will raise much more than sufficient revenue to pay the expenses of our State Government and appropriate $100 000 to common schools. It may be asked, what provision we will make for the payment of the interest on the public debt which the Treasurer may complain that I have over estimated, by adding the amount due 1st of October, 1869, which belongs to the next fiscal year. Let us then estimate the amount for which the State is and will certainly be liable during the fiscal year ending Sept. 30th, 1869.

Amount due Jan. 1st, 1869		$308,197

But a very small portion of the taxes, that arising from licenses and privileges, will be received before Oct. 1st, 1869, and in the first statement which I made, I included the interest which will become due on that day, that we might see the amount which will become due before we collect the taxes. I say unhesitatingly that we cannot afford to borrow, if we could do so, the amount necessary to pay the interest which will fall due before the 1st. of January next and that we must fund in new bonds and try to resume payment at that time.

But I am told that this is repudiation, and that the Constitution provides "The General Assembly shall by appropriate legislation and adequate taxation, provide for the prompt and regular payment of the interest on the public debt." If the Convention really intended that the interest should be paid, it ought to have levied and collected the tax in 1868, to commence payment of interest in '69. As a member of that Convention, I believed at the time, the provision was merely intended to enhance the value of the bonds of the State and enable parties then holding them to sell. I was not a member of the first session of this Legislature, but have always thought that it was a wild scheme of legislation, which tried to do more than the Convention had provided in the Ordinance ratified the 13th day of March, 1868.

1. That interest falling due on and after Jan. 1st, 1869, upon the the bonds dated prior to May 20, 1861, should be paid in cash, which was $967,000.

2. That the interest falling due on and after July 1st, 1869, should be paid in cash, and also for funding all such coupons, on the above classes of bonds due, or which might have become due prior to the time at which payment of interest was to be resumed; which sum, including the interest on the bonds to be issued for funding and excluding that on $1,200,000 of bonds to Chatham Railroad Co, and on $1,000,000 endorsed for W. C. & R. Railroad Co, and on the bonds not yet issued to W. & T. Railroad Co., Western Railroad Co., and N. W. N. C. Railroad Co., would have been $492,785; making the interest for which the State would have been liable during the present fiscal year $759,785, instead of $900,596, to which it was increased by the Funding act of this General Assembly, ratified the 20th day of August, 1868. So that this Legislature, instead of following the directions of the Convention, and making provision by "appropriate legislation and adequate taxation," in 1868, for the payment of interest as it should fall due in 1869, determined to commence paying interest on the 1st. of October, 1868, thereby increasing the amount to be paid during the present fiscal year $140,000, and expecting to borrow the money with which to meet their obligations. Common sense demanded that the amount necessary for the fiscal year should be raised, either before or during that year. The tax of last year was not increased because an election was on hand, and now we find it necessary to postpone collection until October, to enable the people to make something from this year's crop.

We cannot borrow the amount necessary to meet the interest, and even if we could, I am opposed to borrowing at 8 per cent, and pledging the taxes to be raised this year in payment, and on the 1st of October, finding ourselves bankrupt, and going into the market again to borrow at 8 per cent. I prefer to borrow from our present creditors at 6,—give them new obligations for their interest and try to resume cash payment on the 1st of January, 1870. A sane person would have thought that with a debt of $20 488-455 and no provision made to meet the interest, we would have been very cautious in increasing the amount of our indebtedness. But by reference to Class I, Section 1 of the bill under consideration, we find that the tax of 7 20 of one per cent of which we have been speaking, is "in addition to the special taxes which have been or may be levied to pay interest on bonds to or for Rail Roads or other Corporations" under appropriations made by this General Assembly.

The recognized debt of North Carolina, October 1st, 1867, as reported by Treasurer Battle to the Constitutional Convention of 1868, was $13,970,000, (exclusive of the Internal Improvement bonds, issued during the war, amounting to $1,128,000, and estimated interest $140,000—Total $1,268,000.]

The Senator from Craven, (Mr. Sweet,) in a statement made by him, has calculated the interest $838,200 upon this $13,970,000, making a total of $14,808,200, but has failed to notice $1,323,000 of bonds bearing date January 1st, 1868, appearing in the report of the present Treasurer, which were issued, under former acts, probably soon after Mr. Battle made his report to the Convention, upon which sum the interest for six months would be $39,690, which, added to the principal, amounts to $1,362,690

To this add amount due Oct. 1st, 1868, as stated by Mr. Sweet, 14,808 200

Total, including interest to October 1st, 1868, $16,170,890

which sum is $48 744 larger than the amount given by the Treasurer, which arises no doubt from the fact that interest is calculated upon interest by the Senator's statement, prior to the time of funding which the State does not allow.

I have gone into this digression to prevent any misunderstanding, arising from the discrepancy in the amount of the debt, as stated by myself and the Senator from Craven. He should also have added to his statement of the debt due on January, 1869, the interest $308,197.—We may say, then, that the debt of the State, at the meeting of the Convention, (exclusive of Internal Improvement bonds,) was $15,500,000. The Chairman of the Finance Committee of that body estimated the property of the State at $250,000,000, and stated that we would have to levy a tax of two fifths of one per cent to meet the interest (900,000) on the debt, which he stated, in round numbers, at $15,000,000, and provide for current expenses, which he estimated at $100,000, to be raised from taxation, making an annual income of $1,000,000. "This would require a tax of four mills upon the dollar upon the property of the State."

The Convention was very cautious in increasing the debt requiring a mortgage in every case upon a road which had been graded before exchanging bonds with the Railroad Companies and only endorsing the $1,000,000 for W. C. & R. R. R. Co., upon condition that $1,500,800 authorized under the first mortgage should not be issued.—From this prudent course, we are now reaping the benefit, as the Public Treasurer thinks that the State will not have this year to pay any interest upon bonds under these appropriations. In addition to the provision for prompt and regular payment of interest on the existing debt, this provision was inserted as section 5, of article V of the Constitution. "Until the bonds of the State shall be at par, the General Assembly shall have no power to contract any new debt or pecuniary obligation in behalf of the State, except to supply a casual deficit or for suppressing invasion or insurrection, unless it shall in the same bill levy a special tax to pay the interest annually. And the General Assembly shall have no power to give or lend the credit of the State in aid of any person, association or corporation, except to aid in the completion of such Railroads as may be unfinished at the time of adoption of the Constitution, or in which the State has a direct pecuniary interest, unless the subject be submitted to a direct vote of the people of the State, and be approved by a majority of those who vote thereon." Was not this as plain an injunction as could be made, that the public debt should not be increased, or any new burdens thrown upon the State, for Railroad purposes, unless the people were first consulted and they consented to assume the obligations. I ask those Senators who twit me about my funding idea as being in opposition to section 4, and call it repudiation—what attention you have paid to the solemn mandate of those who sent you here, and which you have sworn you would observe. Let us look at the insanity of the first session, and see the appropriations authorized,—for which not one cent of special tax was levied.

Penitentiary,	$200,000
Chatham R. R. Co. (extension to Cheraw,)	2,000,000
N. W. N. C. R. R. Co.,	410,000
W. & Tarboro R. R. Co.,	300 000
W. N. C. R. R. Co.,	4,000,000
Total	$6,910,000

Of the above appropriations, for which no provision was made for payment of interest, except by mortgages upon Roads which had no existence, the Treasurer informs us, in his report, that he issued to the Chatham Railroad Company, $2,000 000, and that bonds for the others were in course of preparation. We know that those for the Penitentiary and W. & Tarboro R. R. Co have since been issued. We have ordered the return of the Penitentiary bonds, and I understand that the Treasurer has received the others by Express, they having been thrown out by the Stock Board of New York, as soon as it was ascertained that they were in violation of the Constitution.

Let us now review the present session:—First, we passed an act to re-enact and confirm the acts which I have mentioned above in regard to the Chatham R R Co., levying 1-20 of one per cent to pay the interest on the $2,000,000, of bonds; 1 30 of one per cent to pay interest on 300,000 to W & Tarboro' R. R. Co., and 1 20 of one per cent to pay the interest on the $4,000,000 to Western N. C. R. R. Co. But as the Supreme Court has decided that we cannot give or lend the credit of the State in aid of Rail Roads which were not in process of construction at the time of the adoption of the Constitution, unless the subject is submitted to a vote of the people, and as other provision has been made for the Western N. C. R. R. Co., we will now take the appropriations to "unfinished" Rail Roads.

W N C R R Co,	$7,000 000	tax of 1-8 of one per ct.	
W C & R R R Co,	4,000,000	" " 1-8	" " "
A T & O R R Co,	2,000,000	" " 1-20	" " "
W R R Co,	1,000,000	" " 1-40	" " "
	$14,000,000		13-40

Here we have a new debt of $14,000,000, requiring an annual tax of $840,000 to meet the interest. But let us examine them separately. The interest on $7,000,000 would be $420,000. Estimating the taxable property at $350,000,000, one-eighth of one per cent would be $312,500; if at $300,000,000, it would be $250,000. But the special tax is not to be collected until October. Does not the Constitution mean that the money shall be in the Treasury before the coupons fall due? I understand $4,000,000 of these bonds, to the W. N. C. R. R Co., have been issued bearing date October 1st, 1868. Do we expect to pay the interest by selling more bonds? The tax for Atlantic T. & O. R. R. Co., is to be levied "whenever said company shall fail to meet the payment of the interest due on its bonds." This is a violation of the spirit if not letter of the Constitution. But it is said that the Treasurer is directed to retain a sufficient amount of bonds in each case to save the State harmless. This does not dispense with the collection of the tax, which for these four roads would be 13 40 of one per cent, or 33½ on the $100 nearly as large as the tax is the present bill, and making together with it 67½ cents on the $100.

The following Roads are claimed to be "unfinished" but I do not so regard them, as no work has been done, and I think the appropriations unconstitutional.

Western R R Co, (from N C R R to Wilkes Co.)	$300,000	tax of 1-80 of 1 per ct.	
S W N C R R Co (including Yadkin branch,)	2 80 000	tax of 1-20 of 1 per ct.	
	$3 300 000		1-16

If the Court should decide in their favor it would add $3,300,000 to our debt and increase our taxes 1 16 of one per cent or 6¼ on the $100, making 73½ cents on the $100,000. We come, now, to the new dodge by which it is expected to flank the decision of the Supreme Court, and, which run is says, that three of the Judges have intimated their intention to uphold. The extraordinary dictum of one of the Justices, in regard to a retrospective homestead, from which he says no other member has intimated his dissent has gone far to shake public confidence in the integrity of the Court, but I still hope no such evasion will be allowed. The Governor is to appoint a certain number of Directors, who are to build the Roads, and to whom the Public Treasurer is to issue bonds—the State receiving nothing in return. Is not this giving the credit of the State in aid of *persons?* And do we not in fact confer corporate powers on them although we profess to give the name only to the road.

The following appropriations are to be played on this footing:

Eastern and Western,	$2,000,000,	tax of 1-20 of 1 per ct.	
Wilmington and T'rboro' (Extension to Suffolk & Wilmington,)	2 700,000,	" 1-16	" "
University,	300,000,	" 1-100	" "
	$5,000 000	"	¼

Adding to the taxes 12½ cents on the $100, or ¼ of one per cent., and annual debt of $300,000 to pay interest.

The following have not yet passed, but I have no reason to suppose they will fail:

Tennessee River Railroad,	1,000,000	tax of 1-40 of 1 per ct.	
Fayetteville and New River,	1,500 000	" 1-20	"
Western R. R, branch to Selma	500,000	" 15 100	"
Plaster Bank and Salt Works R.	650,000	" 1-50	"
Total	3,650,000	24½-100	"

This would require additional annual interest of $189,000, and a tax of 24½ cents on the $100. Suppose that the Supreme Court declares none of our acts contrary to the Constitution, what would the public debt amount to, inclusive of pending appropriations:

Treasurer's statement, Oct. 1st, 1868,	$17,209,945
Convention appropriations, (not included in the above,)	1,950,000
Internal Improvement bonds, issued during the war,	1,309,510
Appropriations to unfinished Railroads,	14,000,000
	$34,468,455
Appropriations to new Railroads, including pending schemes, which have passed one reading,	11,950,000
	$46,418 455
Add interest which will fall due before Jan'y. 1st, 1869, on bonds already issued,	1,862,596
	$48,781,051
Add expenses of State Government,	650,000
Probable interest on bonds to be issued, under the above appropriations,	900,000
	$50,331,051

I do not know that the Chatham Railroad will come up, in a new shape, for $2,000,000, but, if the above amount is not sufficiently large, I suppose that Company could be induced to apply, as it need have no apprehensions about getting the appropriation through.

Senators, in all seriousness do you expect the above debt, calling for a tax of $1.10 upon the $100 worth of property to meet the interest of nearly $3 000 000, ever to be paid,—supposing that the Supreme Court should not declare any portion of it unconstitutional? This tax is also in addition to the taxes to be laid by the counties, nearly every one of which have applied for permission to levy a special tax in addition to the ordinary taxes which they are allowed to levy, equal to double the State tax.

I have been told, that I should not have made this statement, as it will injure the credit of the State. For that I cannot be held responsible. I have voted for no one of the appropriations, but have promised my constituents, that I would not aid in concealing the truth and as the people of the State though poor, are yet as honest as could be expected under the circumstances in which they are placed, I believe they wish notice given that they intend to repudiate this new debt and allege in justification thereof the insanity of their agents. But it is said that I have a Railroad built mostly by the State, running through my own county and that I am illiberal.—$1,000,000 was with great difficulty raised to aid in building that road by individuals along its route, and if you insist upon it, take all the stock of the State and divide it out between you, but do not oppress my people with further taxation.

Mr. President and Senators, let us retrace our steps before we hear the curses of the fathers, and the cries of the children for bread. If we have any feeling left, repeal all these extravagant appropriations and bring this long session to a close and go home. But if you will not do this, direct the Treasurer not to issue any more bonds until the subject is submitted to a vote of the people and approved by them. As I believe the tax proposed in the House bill is as high as can be borne, I hope the amendment of the Senator from Johnston will not prevail.

POLICIES ISSUED AS GOOD AS UNITED STATES BONDS.

POLICIES VALUABLE IN LIFE AS AT DEATH!

The BROOKLYN LIFE is the only Company in the country which guaranties a definite surrender-value to every Policy on which two or more annual premiums have been paid; this amount, in dollars and cents, is endorsed on every Policy issued. Should any Policy-holder become unable to pay his premiums, he can thus know the cash worth of the Policy at any time after two annual premiums have been paid.

This certainly is the greatest inducement and most tangible advantage ever accorded to parties insuring their lives.

Among the advantages offered by the BROOKLYN, which thoroughly evince the determination of the officers to make it the most LIBERAL Life Insurance Company in the United States, are:

1st TOTAL REMOVAL OF ALL RESTRICTIONS ON TRAVEL AND RESIDENCE. The Assured may travel or reside anywhere they choose, the world over without extra premium or special permit.

2d. A Loan of one-third of the Premium to the Policy-Holder Annually.

3d. All Policies are non-forfeitable after two full annual premiums have been paid.

4th. Rates as low as are consistent with financial soundness, and less than those of almost all Companies which accommodate their assured with loans.

5th. Dividends annually (after second year) in cash. Dividends are divided on the CONTRIBUTION PLAN—the only equitable manner of dividing the earnings of a Life Insurance Company. The Contribution Plan was first conceived by Mr. D. P. Fackler, now Actuary of this Company, and has been adopted by most of the best managed Life Companies in this country.

The BROOKLYN LIFE has paid and now pays to its Policy-holders LARGER DIVIDENDS than ever before paid by a Life Insurance Company!

6th. Promptitude in paying losses.

7th. No charge for policy or stamp.

The success which the "BROOKLYN" has achieved, fully exemplified in its rapid and healthful growth, is a convincing proof of the confidence reposed by the public in its soundness, integrity and liberality.

LIFE INSURANCE.
ALL CASH PLAN OF THE

ÆTNA

LIFE INSURANCE COMPANY,
OF HARTFORD, CONN.

W. H. CROW, General Agent for North Carolina and Virginia, South of the James.

Accumulated Capital, over	$10,000,00
Annual Income,	6,000,000
Surplus, above Liabilities,	2,000,000

THE ÆTNA
Has $126 Assets for every $100 Liabilities.
ALL POLICIES STRICTLY NON-FORFEITING.

CASH RATES!
CASH POLICIES!
CASH DIVIDENDS!

DIVIDENDS PAID ANNUALLY, COMMENCING AT THE END OF THE YEAR.
Dividends may be used to reduce the annual Premium, or increase the Cash value of the Policy.
NON-FORFEITING CASH PLAN.

The Ætna issues Policies on the various forms of whole life and endowment insurance, with dividends on the contribution plan, which may be applied to the reduction of each annual premium after the first, or the full premium may be paid each year and the dividends applied to reduce the number of annual premiums, together with the period fixed for the maturity of the insurance, so that endowments can be paid to the insured before the time originally specified, and life-policies before death.

By this plan of applying the dividends to lessen the cost of the insurance on the original policy, instead of increasing the amount of insurance, and of course its total cost, and the policies will become self-sustaining much sooner than in other companies; and in case of inability to continue payments, give a larger paid-up policy.

When, by adding the dividends to the Cash Value, the accumulations on any Policy shall have become sufficient to keep the same in force for the *full amount*, without further payments, the assured may, at his option, either continue payment of premiums, and enlarge thereby the annual additions to its Cash Value—or discontinue them; and in either case, when the accumulations shall have become equal to the sum insured, the annual dividends on the Policy will be declared as a per centage of said sum, and paid in cash, and upon surrender of said Policy the sum insured thereby will be paid in *full*, without regard to the time fixed therein for its payment.

The system of applying the dividends is peculiarly advantageous to the assured, securing, at an increased age, not only relief from further payment of premiums, but at the same time, an annual income until death, unless he shall have previously received full payment of the Policy.

The New York *Insurance Monitor* says of the ÆTNA:

"No Life Insurance Company ever achieved so complete a success as this popular institution. Its popularity is altogether unprecedented in the annals of commercial enterprise in this country."
March 17-tf

SYNOPSIS OF STATEMENT FOR 1868, OF THE CONNECTICUT MUTUAL LIFE INSURANCE COMPANY.

Income from Premiums,	$7 161,304 11
Income from Interest,	1,584,905 48
Total Income for the year,	8,746,209 59
Losses paid,	1 221,335 00
Dividends paid,	928,284 00
Total Losses paid to date,	8,060,944 00
Total Dividends paid to date,	2,177,2 8 00

It will be seen from the above that the INCOME FROM INTEREST ALONE greatly exceeds the losses, and that the TOTAL INCOME FOR ONE YEAR is more than the TOTAL LOSSES PAID TO DATE.

The Assets of the Company are now over TWENTY-THREE MILLIONS OF DOLLARS, and with its IMMENSE INCOME offers greater inducements to those insuring than any other Company in the country. In addition to the part-credit system of premiums with dividends annually payable after four years, it issues Policies upon a reduced all-cash premium, with immediate ANNUAL DIVIDENDS. It can be plainly seen that the Connecticut Mutual Life has been doing a safe and increasing business for the last twenty-two years. It does not deem it necessary to make grand promises of what they INTEND doing, but will insure persons on any plan most desirable, and it makes all its policies non-forfeitable, for a stated amount, after two or three payments. Also re member, this Company has $154 Assets securely invested, for every $100 of its Liabilities.

NEW METHOD OF WASHING CLOTHES
WITHOUT LABOR.
THE AUTOMATIC
CLOTHES WASHER AND BOILER.

THIS BOILER IS MOST EFFECTUAL, reliable and universally recommended. It can be used on any Stove or Range, in any boiler, and the LOW PRICE of the article places it within the reach of every family.

The Boiler operates upon purely philosophical principles, is self-acting, and dispenses with labor and the wear of the clothes.

The hot curls and steam, by the action of heat, are driven up through tubes, poured upon the clothes, and forced through the fabrics with astonishing rapidity, cleaning all articles, from the finest laces to the bed-blanket. For Flannels it is invaluable, as it does not full them as in the old process of rubbing and pressing.

The time required for cleansing a boiler full of clothes is twenty to thirty minutes, and nearly three hundred gallons of boiling suds are forced through the fabric, thoroughly loosening and eradicating the dirt WITHOUT LABOR or friction.—A thorough rinsing finishes the process.

Washing day will no longer be a terror and dread to housewives. The cost of the Boiler will soon be returned in the SAVING OF TIME AND LABOR, and the great saving in the wear of clothes.

The great value of this invention appears so clear, and appeals so directly to common sense, that we have deemed it unnecessary to accompany its introduction with numerous letters of approval, &c.

No invention has met with such ready sale and given such satisfaction. Call at LOUGEE & BROTHER'S, and see its wonderful operations.—We have the exclusive right to sell and manufacture in the state.

DRY GOODS.
NEW GOODS! NEW GOODS!
AT HOME AGAIN!!
WITH A HOUSE RAMMED AND PACKED FULL OF
NEW FALL AND WINTER GOODS,
FOR
1868.
COME TO
A. CREECH'S!
For Ladies' Goods! For Gentlemen's Goods! For Misses' Goods! For Boys' Goods! Ditto for Children!

MY STOCK IS LARGE AND VERY COMplete. Allow me to say that you are some very strange advertisements. Some say they bought goods before the rise—some after the decline—some just in time—some in luck again—some buy goods cheaper than anybody else—some selling goods at unprecedentedly low prices—some quoting the trade &c., &c., and all such stuff. What a lucky set of individuals!

Now just let ME tell you, that there is more humbug than poetry in all this. Don't every man, woman and child know that it is humbug—large enough to be seen even with one eye shut? So let them talk, puff and blow, but stop, LOOK OUT! **HANDS OFF!** and show your good judgment by
COMING TO CREECH'S
to buy your goods. I intend to run through this campaign with my motto, to give each and every individual value received for their support!

A fine opportunity for the ladies to exercise their inalienable rights, as well as the gentlemen. Don't stop until you COME TO CREECH'S. You will find me at H. Smith's corner, attending to my business, always ready to give you the worth of your money.
